

Stronger, Faster, Better Looking, and NO Pumping Any Questions?

Li-BUDDY™ JUNIOR SUCTION CUPS

Introducing the lil-BUDDY Junior Suction Cups for all applications. These cups are great with with the lil-BUDDYPRO1 Windshield Installation tool, but can be used with any installation tool. When properly operated, they retain a secure grip on one side of the windshield so the technician can easily maneuver, and accurately position a replacement windshield.

**Each cup holds up to 70 pounds
and comes in a carrying case!**

You've Asked We've Listened

- Optional design for the passenger side mount or the drivers side mount makes this the Lilbuddy Pro 1 the best choice for you!
- All models now offer a heavy-duty sliding rod to handle the weight of the heavy RV and semi windshield.
- Lilbuddy Pro 1, with its exclusive patented design for user-friendly setup, now your able to lower the windshield into the urethane without the need for removal of either suction cup from the glass.
